

# Better informed means better care

Dorset Care Record brings all your health details together so medical and social care staff **can give you the best possible care**

## Demographics in the DCR

For more information please visit:  
[news.dorsetcouncil.gov.uk/dcr-staff-area](https://news.dorsetcouncil.gov.uk/dcr-staff-area)

# Demographics

Comprehensive and the latest demographic information for a patient can be found in the DCR on the **Summary** tab under:

- the **Person Banner** and
- **Additional details**.

The demographic information includes personal and contact details and is fed overnight from the **PDS (Personal Demographic Service)/NHS Spine** first, and then anything extra not in the PDS comes from the Partner systems, if any additional info is available.

The **Partners** contributing demographic information are

- **Dorset Council** for both Adults and Children's data,
- **Bournemouth Christchurch Poole Council** for Adults data only,
- **Dorset County Hospital**
- **University Hospitals Dorset**
- **Dorset HealthCare Mental Health**
- **Community Substance Misuse Services** - Reach across the DC area and With Are With You, or simply With You, across the BCP area.

# Demographics in the DCR Person Banner

In the **Person Banner**, you can find the patient's date of birth, gender, address, contact details, NHS and PDS numbers, as well as their current GP practice.

# Demographics under Additional Details – If the person is known to the Community Substance Misuse Services

The data from the [Community Substance Misuse Services - Reach \(DC\)](#) and [With you \(BCP\)](#), where available, will be visible alongside all other available data for the person. The data is fed from the [HALO CMS system](#) and a HALO ID will be visible in the **Additional Details** section of the **DCR** as shown below and will appear alongside any other local identifiers such as hospital numbers. Please note that the HALO data will only populate fields in the **DCR** if they are not already populated with data from another source.

Please also note that any address data feeding from HALO will populate the **‘HOME’** address field – the address data from all other sources populates the **‘MAIN PERMANENT’** address field - so there will be instances where more than one address is showing.

# Disclaimer

The screenshots in this training guide are taken from a test system and as such may vary slightly to the live DCR system.

Screenshots in this training guide do not contain any real patient data.

Data provided by source systems is read-only in DCR. There are various level of restrictions and sensitivities being applied within the Partner's systems, and the DCR respects and displays the data as provided by the Partners.

The information contained within the NHS Dorset system (the Spine) is the overriding system for updating demographics.
