

Better informed means better care

Dorset Care Record brings all your health details together so medical and social care staff **can give you the best possible care**

A brief explanation about the Cancer results documents in the DCR

For more information please visit:
news.dorsetcouncil.gov.uk/dcr-staff-area

There are two Cancer results documents available in the DCR

1. There is a **Cancer results** document which comes into the DCR **directly** from the Partner source system, and
2. A **Cancer results** document which comes into the DCR **indirectly**, after it has been through the **Remote Monitoring System (RMS)** and the **Partner's TIE** where the document is converted into a pdf format.

This user guide will show you where each of these documents can be found in the DCR.

2. The **Cancer results** document which comes **indirectly** from the Partner source system via the **Remote Monitoring System (RMS)** and the **Partner's TIE** can be found under the **Patient held records**.

1. Finding the Cancer results document that comes into the DCR *directly* from the Partner source system.

NOTE

This results document comes **directly** from the Partner's source system.

It is an existing direct feed from the Partner's source system into the DCR.

2

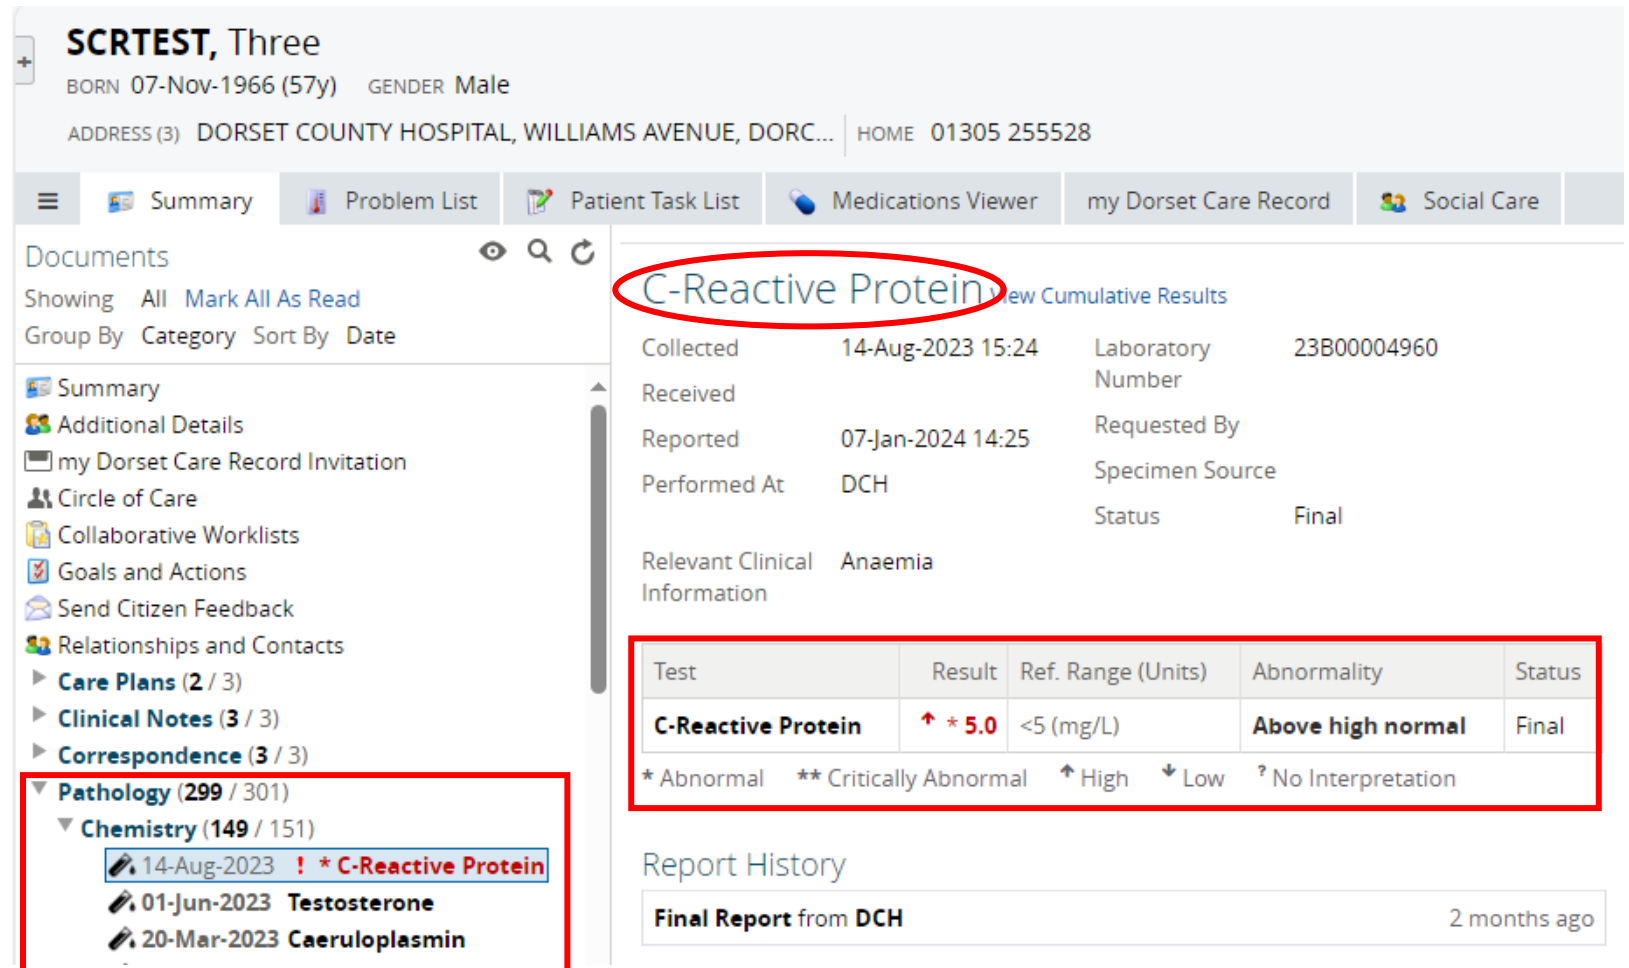

Click on the relevant **Specialty and Associated Subsection** (e.g. Pathology/Chemistry, Radiology/MRI).

3

Find the correct **Date** for the document you are looking for (e.g. 22-Jan-2022 PSA).

4

Click on the **Document** to select it.

Relevant Clinical Information Anaemia

Test	Result	Ref. Range (Units)	Abnormality	Status
C-Reactive Protein	↑ * 5.0	<5 (mg/L)	Above high normal	Final

* Abnormal ** Critically Abnormal ↑ High ↓ Low ? No Interpretation

Report History
Final Report from DCH 2 months ago

2. Finding the Cancer results document that comes into the DCR *indirectly* from the Partner source system via the Remote Monitoring System (RMS).

NOTE

This results report comes **indirectly** from the Partner's source system, after it has travelled from

The Partner's source system to

the Remote Monitoring System (RMS) and the Partner's TIE.

The Partner's TIE converts the results into a **pdf** format, as can be seen in the screenshot on the right.

Disclaimer

The screenshots in this training guide are taken from a test system and as such may vary slightly to the live DCR system.

Screenshots in this training guide do not contain any real patient data.

Data provided by source systems is read-only in DCR. There are various level of restrictions and sensitivities being applied within the Partner's systems, and the DCR respects and displays the data as provided by the Partners.

The information contained within the NHS Dorset system (the Spine) is the overriding system for updating demographics.
