Demographic information

The demographic information in the DCR is fed overnight from the PDS (Personal Demographic Service)/NHS Spine. This ensures that the demographic information in the DCR is comprehensive and the latest information available for the person - it can be found **1** in the person banner on the main screen and **2** in the Sidebar under Person Details.

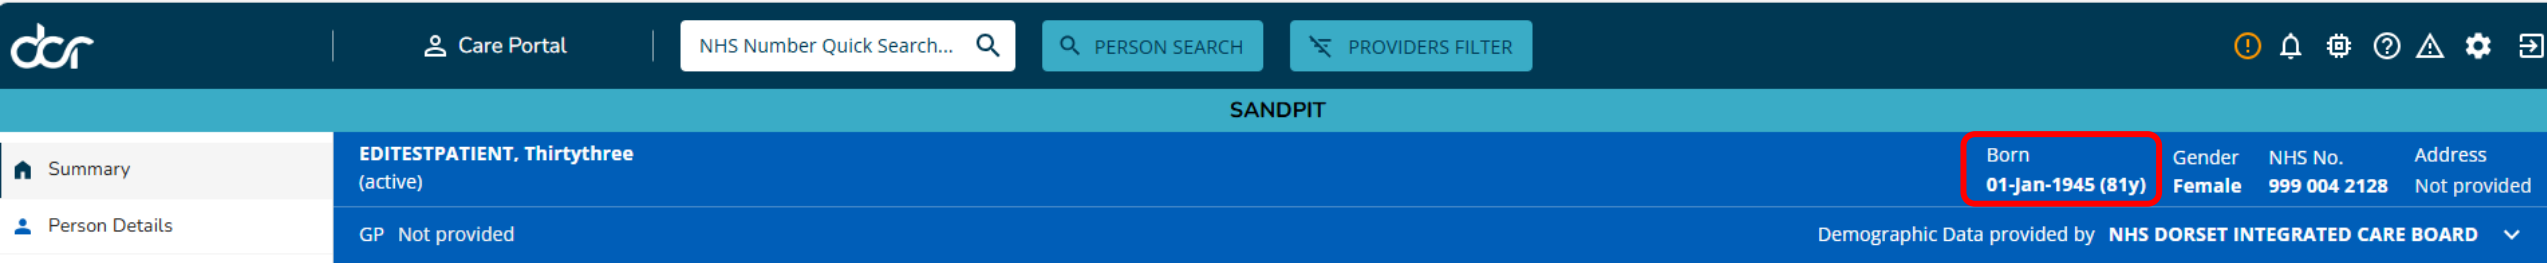

The screenshot displays the Dorset Care Record (DCR) interface. At the top, there is a navigation bar with the DCR logo, a 'Care Portal' link, and search filters for 'NHS Number Quick Search...', 'PERSON SEARCH', and 'PROVIDERS FILTER'. Below this, a 'Person banner' (labeled **1**) displays patient information: STRAWBERRY-TESTPATIENT, Sally (Miss) (active), Born 20-Jul-2017 (8y 6m), Gender Female, NHS No. 999 014 9623, Address St Anns, 69 Haven Road, Canford Cliffs, POOLE, Dorset, BH13 7LN. The banner also indicates the GP is PUDDLETOWN SURGERY and that demographic data is provided by NHS DORSET INTEGRATED CARE BOARD. On the left, a 'Sidebar' (labeled **2**) lists navigation options: Summary, Person Details, Flags, Allergies and Adverse Reactions, Appointments, Diagnostic Reports, Documents, Encounters, and Healthcare Referrals. The main content area shows a 'Summary' view with tabs for SUMMARY, GP DATA, SYSTMONE NON-GP, TIMELINE, and FEED. Below these tabs are several summary cards: Flags (0 active, 0 records), Allergies and Adverse Reactions (0 active, 0 records), Complex Medications (0 in last 12 months, 0 records), Documents (0 in last 3 months, 2 records), Appointments (2 most recent, 2 records), Encounters (0 in last 3 months, in 2 groups, 2 records), Healthcare Referrals (0 in last 3 months, 0 records), and Diagnostic Reports (0 in last 3 months, 12 records).
